Tallahassee, Florida, February 19, 1907.

To His Excellency, N. B. Broward, Governor of Florida.

Sir:

Pursuant to your instructions, I have carefully examined and checked up the accounts of the Trustees of the Internal Improvement Fund of the State of Florida, since the creation of the trust in 1855 to January 1, 1907, and have the honor to submit herewith my report thereon.

In making this investigation all sources of information to be found, bearing on the transactions of the Trustees, were carefully examined and consulted; viz.: The minutes of the Trustees, journals of the Senate and House of various Legislatures, published reports, books and records of the Trustees and books and records in the State Treasurer's office, and the original accounts and vouchers when to be had.

There are no original books or records in existence concerning the financial transactions of the Trustees prior to the year 1881, so the statement of account involving the period before 1881, was obtained exclusively from published reports, messages and documents and the like.

For the years 1871, 1872 and 1873, there is no accounting because no information is to be had concerning the transactions of the Trustees during that time. It is said that all the records were lost or destroyed, supposedly by the custodian thereof, reference being made thereto at the proper place in the report.

On June 1, 1872, on account of alleged mismanagement of the trust, the United States Court, for the Northern District of Florida, appointed A. Doggett, Esq., as receiver for the fund and from that time until some time in 1881, its affairs were practically administered by that court, the Trustees being only authorized by the court to pay the ordinary expenses of the fund. Afterward the court house in Jacksonville was burned, thus destroying all the authentic records of its complete administration during that period.

From 1881 down to the present time the original books are accessible, and from January 9, 1889, all the original vouchers are to be had for the funds disbursed.

The books and accounts of the Trustees are correctly kept and accurately set forth all their transactions and

the original vouchers properly numbered and filed, so as to be of easy reference.

The funds of the trust are deposited with various banks, which have placed with the Trustees ample securities to safeguard against loss by reason of such deposits. On these deposits the Trustees have received interest since the year 1901.

All of which is respectfully submitted:

ERNEST AMOS,  
State Auditor.

I was unable to find any books, records or reports concerning the financial transactions of the Trustees during the years 1871, 1872 and 1873.

I give an extract from the printed minutes of the Trustees, Vol. 2, pages 65 and 66:

Tallahassee, Monday, May 11, 1874.

The Treasurer presented a letter from J. S. Adams, written in response to his letter of inquiry concerning books and papers belonging to the Treasurer's office, as follows:

Jacksonville, April 17, 1874.

Hon. Chas. H. Foster,  
State Treasurer.

Sir:

I have the honor in reply to your favor requesting the return of any books or papers belonging to the Trustees of Internal Improvement Fund, and that I furnish a statement of my accounts; to say,

First—That the papers, books and documents appertaining to the office of Treasurer of the Internal Improvement Fund were turned over by me to my successor in office, Hon. Sam T. Day, soon after his accession.

Second—My accounts as Treasurer were examined, audited, approved and allowed by the Trustees, who alone were legally authorized to do so.

The statements and allowance of those accounts were all made matters of record and stood recorded in the Book of Records of the Board when I delivered the same to Treasurer Day.

I have the honor to be,

Yours respectfully,

J. S. ADAMS.

It is said that no trace of any financial record was left by Sam T. Day.
